Frequently Asked Questions

Is my Information Secure?

Yes. Protecting your personal health information is our top priority. Through an encryption process developed by our Electronic Health Record company, your information is kept safe and secure, for your use only.

Why is this free service offered?

This service is available to help streamline patient information and needs. We will be able to better serve you with less wait time through portal messaging. You will also have access to your own health information.

How long will it take for a response?

As we initiate the program, response times will vary. However, we will respond to you in a timely manner as fast as possible. For urgent matters, please continue to contact the office by phone.

Who can answer additional questions or help me register?
